CADDO - BOSSIER

M/WBE Partners

The Caddo-Bossier Port Commission created its Minority and Women Owned Business Program to ensure those businesses are actively solicited and given an equal opportunity to compete and participate as strategic partners and suppliers of goods and services with The Caddo-Bossier Port Commission. Our primary objective is to increase minority and women-owned business participation in number and value of business transactions, while continuing to purchase and form strategic partnerships on the basis of competitive expertise, safety, value, price, delivery and financial stability. Collaborating with minority and women-owned businesses is essential to our local economic growth and development.

We have created a database of vendors and suppliers who meet the requirements of being minority or woman-owned. Presence in this database does not constitute endorsement by The Caddo-Bossier Port Commission.
